

We believe in empowering companies with options to grow their business on their terms, not ours.

## MiniMate™ II Hot Melt Dispensing Applicators

Top performance and long service life  
increase productivity and lower operating costs

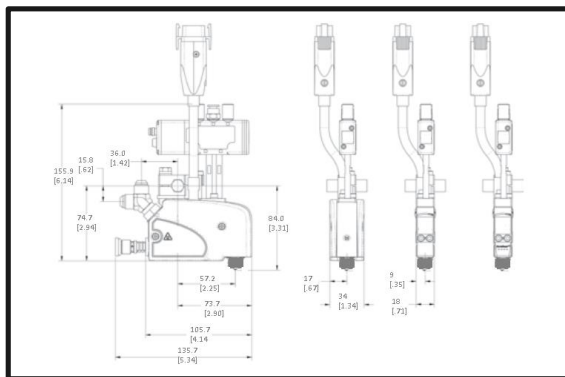

### Features:

- Enhanced Novotritex™ seals outperform life cycles of other brands
- Accepts the standard precision style nozzles
- Slim style affords flexibility in mounting in tight spots
- Wash down version also available
- All applicators include Quick Change filters

### Benefits:

- Enhanced module combined with solenoid offers speeds that are competitive with electric applicators
- Extended operating life reduces frequency of replacement, providing cost savings
- Air open/air close design produces better adhesive cutoff and cleaner patterns
- Reduces spend on adhesive by allowing intermittent bead dispensing
